Site introduction

JVC Mexico Factory has started the operation in 1995 and we have reached total TV manufacturing 10 million units in Dec, 2004. In the past we have recognized from Mexican government about energy saving contribution company and the activities are continuing till now. We are trying to reduce use of electricity, water and chemical substances.

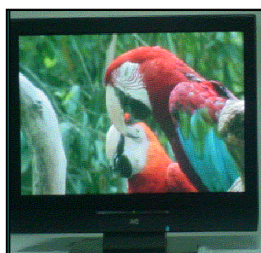

Environmental compliance administrator **Masakazu Fujisawa**

FY2005 Environmental Activities

Our most important environmental activity for the year 2005 is to meet whole group RoHS requirements and keep the target schedule. We also started to review very carefully CO2 reduction factory wide.

Products/Technology Information

Plasma TV

HD-ILA TV

Even in the screen size of 70 inches, the power consumption of about 60% of 42-inch plasma television. It approaches 32-inch LCD TV. *

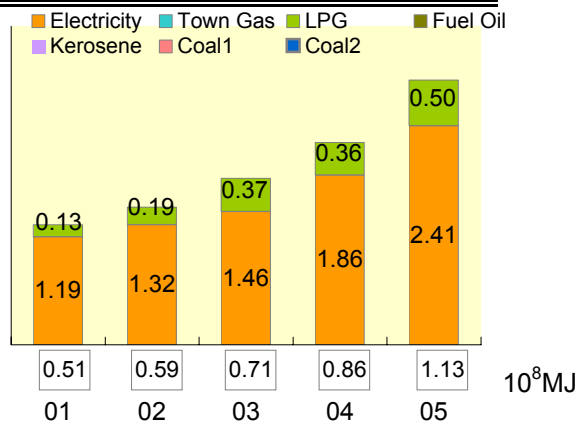

*:Compared with our company(HD-ILA TV: HD70G886 220W, Plasma TV:42V485 364W, LCD TV:LT32X585 195W)
